

FIG. 1 is a block diagram of a network system 100. The system 100 includes a network 120, a plurality of clients 102A-102N, and a plurality of servers 130A-130N. The clients 102A-102N are connected to the network 120, and the servers 130A-130N are also connected to the network 120. The network 120 is represented by a cloud shape and is labeled "NETWORK". The clients 102A-102N are represented by rectangular boxes and are labeled "CLIENT". The servers 130A-130N are represented by rectangular boxes and are labeled "SERVER". The system 100 is indicated by a reference numeral 100 and a curved arrow pointing to the network 120.
